Root Cause Failure Analysis - Middelburg	1			19									
Root Cause Failure Analysis - Rustenburg	1					14							
Root Cause Failure Analysis - Durban	1								20				

## Mobius Training

Mobius has training partners in 65 countries, and is recognised the world over as the preferred standard for reliability solutions technicians. Mobius courses are run by WearCheck and presented either on-site or at the ABB School of Maintenance.

All the Mobius courses that are traditionally offered by WearCheck are now available online in the form of a 'virtual classroom' (continuous training or structured sessions) or self-paced internet training, including Vibration Analysis CAT 1, CAT 2, CAT 3, Precision Balancing, Precision Shaft Alignment and Asset Reliability Practitioner courses 1, 2 and 3.

All certification exams are also offered online.

Course	CPD Points	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
Vibration Analysis - CAT 1	4		1-4				7-10						
Vibration Analysis - CAT 2	5		22-26						16-20				
Vibration Analysis - CAT 3	5					10-14						8-12	
Precision Maintenance - Balancing	*												
Asset Reliability Practitioner - ARP 1	3						21-23						
Asset Reliability Practitioner - ARP 2	5									13-17			
Asset Reliability Practitioner - ARP 3	*												

\* On request.

## Online Mobius training and assessment

This online Mobius training is structured with the option of two course formats:

1. Self-paced online training: access for six months to the videos and training material, with access to an expert CAT IV instructor to answer specific questions during the six-month period prior to the exam.
2. Virtual classroom training: live online training sessions for the normal course duration, giving the full advantage of a classroom full of live interaction with other delegates and the instructor (minus the risk of exposure to travel and limited physical interaction). The assessment is completed online after the course.

## Other On-site and online training

All the public courses listed in the WearCheck training schedule can be presented at the customer's site of preference in South Africa or abroad.

We have the pleasure of offering customised training content to suit your requirements, your dates and your location. Customised training on offer includes sampling of lubricating and transformer oils, lubricant storage and handling, Introduction to oils and concise oil analysis for workshop technicians.

To reduce the risk of exposure to travel and to ensure limited close contact, we also offer our courses online.

Please request our training brochure for a detailed breakdown of courses on offer, training content and scope deliverables.

---

**For more information about our public, On-site and customised training courses please email [training@wearcheck.co.za](mailto:training@wearcheck.co.za) or contact 031 700 5460.**

---
