25th March 2020

## To Whom It May Concern

Dear Sir/Madam

### CORONAVIRUS (COVID-19) - DECLARATION OF A NATIONAL LOCKDOWN IN TERMS OF SECTION 27(1) OF THE DISASTER MANAGEMENT ACT, NO. 57 OF 2002

On 23 March 2020, His Excellency, President Cyril Ramaphosa announced a national lockdown in terms of section 27(1) of the Disaster Management Act, No. 57 of 2002, in order to obviate the spread of the Covid-19 pandemic. The national lockdown will take effect from midnight on 26 March 2020 until midnight on 16 April 2020.

The President also announced categories of persons and institutions that will be exempted from the national lockdown to include, among others, "laboratories". **WearCheck Laboratories, a division of Synerlytic Services (M1989000201)** is a supplier of essential services to industry, particularly industries that have been deemed essential suppliers by the Presidency.

During the 21-day national lockdown period, WearCheck will not cease its operations in order to provide these essential services. We will however operate with skeleton staff at select locations.

All samples, irrespective of type, that need testing can either be delivered to our offices in Isando, which will then be sent on to our Durban laboratory or you can send your samples directly to the Durban laboratory, where they will be processed as normal.

All vibration, balancing, technical compliance and NDT staff are available and will be allowed to travel to your site. However, we will require assurance that your site is fully compliant with the national safety measures regarding Covid-19.

Should you require any further information, please do not hesitate to contact me directly on [neil@wearcheck.co.za](mailto:neil@wearcheck.co.za) or +27 83 776 0961.

Kind regards

Neil Robinson  
Managing Director  
WearCheck Laboratories.
